EDUCATION

M.Tech Data Science

IIT Madras | 2021 - 2023 | CGPA: 8.9

SKILLS

Programming: Python, R, SQL

ML/DL: TensorFlow, PyTorch, Keras, scikit-learn, XGBoost, LightGBM

NLP: NLTK, spaCy, HuggingFace, BERT, Transformers

Data: Pandas, NumPy, Matplotlib, Seaborn

Tools: Jupyter, Google Colab, MLflow, DVC, Git

EXPERIENCE

Data Scientist | AI Research Lab | July 2023 - Present

- Developed NLP models for document classification achieving 94% accuracy
- Built recommendation system serving 1M+ users with 35% CTR improvement
- Co-authored 2 research papers published in international ML conferences

PROJECTS

1. Medical Image Classification

CNN model for diagnosing chest X-rays with 94% accuracy, deployed on AWS SageMaker

Tech Stack: PyTorch, OpenCV, AWS SageMaker, Docker

2. Sentiment Analysis System

BERT fine-tuned model for multi-class sentiment analysis achieving 92% accuracy

Tech Stack: HuggingFace, PyTorch, Flask, MySQL

CERTIFICATIONS

- Deep Learning Specialization - Coursera (Andrew Ng)
- NLP with Deep Learning - Stanford CS224N
- MLflow for Machine Learning - Databricks
